### Water isn't just for scrubbing in...

Don't put your water bottle or glass down just yet. While we may not need eight glasses, there are plenty of reasons to drink water. In fact, drinking water (either plain or in the form of other fluids or foods) is essential to your health. Your body is composed of about 60% water and water helps the body function and aids in digestion, absorption, circulation, creation of saliva, transportation of nutrients, and maintenance of body temperature.

### What's New

Did you get the beginning of the year 2023 Employee Survey?

- We are looking for feedback from our employees!
- We want to know what's important to you and what suggestions you may have for benefits.
- The survey was sent to all of our active employees at the beginning of the month.
- If you haven't seen the survey, please check your spam folder for a Survey Monkey email.
- The survey will be open through the end of the month.
